

KITE SURFING

- Take Lessons
- Purchase the right equipment and safety gear
- Avoid strong winds and rough sea conditions
- Stay clear of power lines, populated areas, coral, congested water activity, and rocky coastlines
- Keep a safe distance from other kite surfers
- Inspect your equipment before and after use
- Have a plan for self rescue; know what to do if you find your self in a dangerous situation.
- Check the weather and local sea conditions
- Have a control bar with a quick release and a detachable kite leash
